Special diving promotion

Come diving to Puerto Galera, one of the oldest Spanish settlements in the Philippines. Founded in 1572, and became the first provincial capital of Mindoro Island. It is situated on the northern peninsula of the island, approximately 160 km south from Manila.

Bio-diversity

“Puerto Galera can truly be categorized as one of the most biologically diverse dive destinations in the world. I have never witnessed the profundity of marine life that abounds within such a relatively small area. I hope other divers, photographers and scientists will be attracted to and appreciate such biological wonder.”

Ethan Daniel
Marine biologist.
